

1st March 2018

Dear Parent/Carer,

The weather this week has caused significant difficulty for us to safely open the school for your child/children.

Yesterday a number of staff came onto the site to clear paths and salt in the hope that we could open today but after inspection in the early hours it was clear that this would not be possible.

Based on the current forecast and latest travel advice I am reluctantly making a decision to close the school on Friday 2nd March. I hope that this early warning will give you the opportunity to make plans for tomorrow and I apologise in advance for any disruption this will undoubtedly cause.

Staff will provide work for pupils online this evening ready for access tomorrow and we hope that all will return to normal next week. We will keep our website updated with any developments as well as informing you via ParentMail and Facebook.

I hope you stay safe during this severe weather and I look forward to welcoming you back when it is safe to do so.

Kind regards

Miss S Edwards
Headteacher
