Good Morning Team Gordon!

Welcome to our Assembly, I hope you are all well and keeping safe!

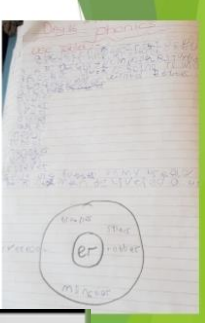

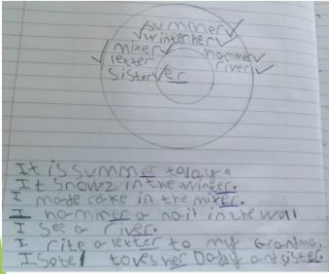

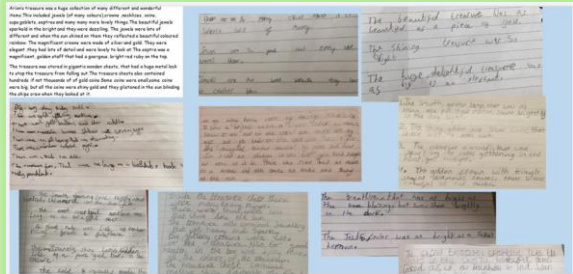

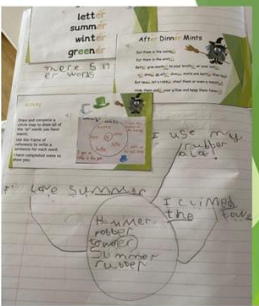

I'm sure you would agree this is a very strange and confusing time for everyone... something we have never experienced before.

The Covid-19 pandemic has changed the way we live, and we have had to adapt our life style in order to help keep ourselves safe.

# Gordon Children's Academy

One of the biggest changes is the way you have been learning over the past few weeks. It has been great to see all the home learning you are getting on with, keep up the great work! A big well done goes to all the grown -ups who help you with your learning -they are doing a fantastic job!

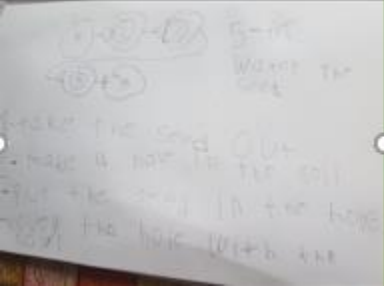

Drinks	Tally	Total
Milk		28
Water		22
Juice		13
Tea		11

The tallies here are clearly laid out in groups of five. There are 4 straight lines, with the 5<sup>th</sup> crossing through the 1<sup>st</sup> and 4<sup>th</sup> tally mark. There is space between the groups of five and the single tallies are at the end.

This person has accurately used the information provided in the question to complete the tally chart. Their tallies are accurately grouped in fives, which make them easy to count.

Year	Tally	Total
1		28
2		26
3		16
4		20

I would also like you to join me in thanking all your teachers and teaching assistants for fantastic home learning resources they have very busy creating for you, as well as all the other staff at Gordon who have working behind the scenes to ensure we do our very best to support you and your families.

# Gordon Children's Academy

**What do you miss the most?**

**Using your red hat, take a minute to think about 5 things you miss the most.**

# Gordon Children's Academy

What do you miss the most? Did you have any of these?

## I miss:

- ▶ visiting and spending time with other members of my family
- ▶ going out with my friends
- ▶ the freedom to travel and move around freely
- ▶ Most of all, I miss seeing you and spending time with you

# Gordon Children's Academy

I'm sure you are wondering when will this end ?

The best people to help answer this question are the experts. Meet Professor Ball a virology expert-this means he is a scientist who studies viruses and the disease caused by them. In this video clip he answers children's questions on coronavirus . You probably have the same or similar questions too.

Follow the link below to watch the video

<https://www.bbc.co.uk/news/av/health-52421754/when-will-it-end>

(right click and select open hyperlink)

**Virology-** is the scientific study of viruses and the diseases caused by them.

# Gordon Children's Academy

I hope you have found this video helpful and some of your questions have been answered.

Remember this will end!

But for now we need to follow the Government's guidance.

**STAY HOME**  
**STAY SAFE**  
**SAVE LIVES**

# Gordon Children's Academy

Remember if you have any questions no matter how small speak to someone in your family about it.

Use your green hat find creative ways to spend your time. Learn something new, be helpful around the house(mum and dad would appreciate this)

Think positively, people are showing more care kindness and respect towards each it.  
You get to spend more time with your family.  
Less CO2 emissions as we have less cars on the road.  
Can you think of 2 positives ? Hold onto these and smile.

Stay Home  
Take Care
